PROFESSIONAL SUMMARY

Computer Science student with hands-on experience developing AI-powered and full-stack applications using Python, Google Gemini API, YOLOv8, OpenCV, and Flask REST APIs. Seeking an AI / ML Intern role to contribute to intelligent automation and machine learning workflows utilizing verified programming capabilities.

TECHNICAL SKILLS

AI & Machine Learning: Google Gemini API, NLP, YOLOv8, OpenCV

Programming Languages: Python, C++, JavaScript, SQL

Backend & Web Development: Flask, REST APIs, Node.js, Express.js, React.js

Databases & Storage: MongoDB, SQLite, Redis

Developer Tools: Git, GitHub, Postman, VS Code

PROJECTS

SkillBridge — AI-Powered Interview Preparation Platform

React.js, Node.js, Google Gemini API

- Engineered a full-stack career preparation system integrating Google Gemini API to analyze candidate resumes against job descriptions and generate structured interview questions.
- Implemented JWT authentication, role-based access control, and Redis caching to optimize report fetching and user simulation tracks.

AI Security & Attendance System

Python, YOLOv8, OpenCV, Flask

- Developed an automated face detection and computer vision attendance logging application utilizing Python, YOLOv8, and OpenCV.
- Created a Flask web interface and integrated an SQLite database for real-time local attendance tracking and record management.

EXPERIENCE

Python Developer Intern — TechSoft Solutions

June 2024 – August 2024

- Authored Python scripts for internal automation and data processing pipelines, applying Object-Oriented Programming principles to optimize routines.
- Assisted senior engineering teams with code debugging, unit testing, and performance profiling of legacy software modules.

EDUCATION

Bachelor of Science in Computer Science (BS CS) — FAST NUCES, Lahore

2022 – 2026 | CGPA: 3.4/4.0
